PROFESSIONAL SUMMARY

AI product and program professional with 1.5+ years of experience translating GenAI requirements into scalable data workflows, leading cross-functional delivery, and aligning Research, QA, and Product stakeholders. Led a 10-person squad to ship 10,000+ prompt variations, increased sprint delivery velocity by 56%, and reduced dataset errors by 40%.

CORE SKILLS

Product & Program Management: Product requirements documents (PRDs), product roadmapping, requirements gathering, acceptance criteria, stakeholder management, sprint planning, Agile/Scrum, technical project scoping, resource planning, risk management

AI & Technical: GenAI productization, prompt engineering, LLM data validation, structured JSON, RAG frameworks, Python, SQL, API integration, no-code automation, SDLC

Tools & Analytics: Jira, Confluence, Make.com, Airtable, Power BI, Tableau, Microsoft Excel, funnel analysis, KPI tracking

EXPERIENCE

Keywords Studios

Gurugram, India

Technical Research Engineer - AI (Promoted) | Amazon Nova Act

November 2025 - Present

- Led a 10-person cross-functional AI data operations squad to deliver 10,000+ structured prompt variations, implementing Agile workflows that increased sprint delivery velocity by 56%.
- Owned stakeholder communication and milestone tracking across Research, QA, and Product teams, aligning acceptance criteria and managing edge-case delivery risks.
- Authored technical specifications and established QA, audit, and automated JSON validation frameworks that reduced dataset errors by 40% and accelerated downstream model deployment.

Keywords Studios

Gurugram, India

Research Engineer - AI

April 2025 - November 2025

- Curated and validated 3,000+ samples, using error-pattern analysis and structured feedback to improve model output reliability by 20-25%.
- Owned quality metrics for the data delivery pipeline and maintained 98% accuracy across validation cycles.

Founders Office

Remote, India

Digital Product Consultant Intern

October 2024 - January 2025

- Completed 100+ market and product research assessments, validating 5+ high-priority digital product ideas and shaping early feature roadmaps.
- Developed cross-functional feasibility and capacity-planning models that reduced engineering requirements-definition time by 43% for new product proposals.

PROJECTS

Automated Lead Generation Tool | *Make.com, Airtable, Calendly, Tally* | [GitHub](#)

May 2026

- Built a 6-step no-code automation workflow integrating 5+ SaaS platforms and APIs to qualify and route leads every 15 minutes while automating email and calendar actions.
- Implemented \$10K+ budget qualification logic and automated Airtable updates, achieving 100% filtering accuracy and reducing manual lead qualification time by 96%.

Customer Satisfaction Dashboard | *Python, SQL, Tableau, Power BI* | [GitHub](#)

September 2023

- Built a product-health dashboard tracking NPS and funnel conversion; identified a 15% onboarding drop-off and proposed 3 UI/UX recommendations adopted by the design team to improve activation.

EDUCATION & PROFESSIONAL DEVELOPMENT

Greater Noida Institute of Technology (GNIT)

Greater Noida, India

B.Tech in Computer Science and Engineering | CGPA: 8.2/10

Graduated June 2024

Professional Development: Project Management for Beginners; CAPM Certification Course; Career Essentials in Business Analysis
